

Socialist Lies or Christian Truth

by

Hilmar von Campe

There is a fundamental difference between Marxism, provider of the Socialist philosophy, and Christian teachings. The difference makes the two world views incompatible, in other words, you cannot be both. Whoever says that they are compatible either lies or is ignorant.

Marxists believe that a non-Socialist society is to blame for what is wrong with people and therefore, change has to begin with those who are responsible for society, mainly the rich. Others, not they, have to change and the others are in the end all those who oppose Socialism. People are either forced to comply or they are killed, as happened in Nazi Germany. If you put right what is wrong in society, so goes Marxist theory, you will heal injustice and people, products of a hostile society, will become their good selves. Healing is created by installing more and more Socialists in office, Socialist immorality and Socialist programs. Obama has not touched corruption and moral issues. His plans for dealing with issues are of economic nature and are pure Marxism, blaming the non-Socialist enemies and distribution of money to bribe poor voters, make them dependent on government and cement with it your power. Marxism's concepts lead to the welfare state – and on to a totalitarian system built on lies where government is central. There is no real concern for people; power is at the heart of all their projects.

Christianity teaches that what is wrong is the fallen nature of man, who gives in to the evil inside. Moral change in people and restoring the broken relationship with God will change what is wrong in society. Christian teachings are at the heart of our Constitution. Responsibility for oneself is a pre-condition for a healthy society. That is why America is special and prosperous. Government's task is to clear the way for initiatives of their citizens and not block it. John McCain's and Sarah Palin's priority to clean up the government and bring it back to the people is exactly what America needs. They know as we do that Republicans especially those at the center in Washington are also responsible for ousting our Constitution from American society with devastating consequences. John McCain and Sarah Palin are getting at this corruption, beginning with their own ranks. Their priorities are job creation, drilling, and fighting inflation. They are pro-life and so is the Republican Party.

Senator Obama answered the question of the Reverend Warren regarding when life begins during a national television interview with "This is above my pay grade". I think he lied. The Speaker of the House Nancy Pelosi stated, "I would say that as an ardent, practicing Catholic this is an issue that I have studied for a long time. And what I know is, over centuries the doctors of the church have not been able to make that definition.... We don't know. The point is that it shouldn't have an impact on a woman's right to choose." I think she lied. She is neither an ardent nor a normal Catholic; she is a godless Socialist pagan. Colorado Archbishop Charles Chaput commented "Democrats don't know Christianity." No woman has a right to have her child killed.

I heard Senator Biden say that he is pro-life but cannot force his religious views on others. So he is part of the abortion gang like a myriad of Democratic colleagues who also like to be on both sides.

The Democratic Party with the leadership of Obama, the Clintons, Reid and Pelosi and comrades is an illegitimate party which is destroying the Constitution which leads to spiritual, political and economic disaster. It is illegitimate because of policy principles like abortion and Darwinism being taught in schools. Instead of protecting life this party promotes killing life. The Republican

Party on the other hand is legitimate in principle with a majority which wants to do what is right but lacking a national and personal purpose and therefore are so often appeasing what is wrong. Nobody wants to risk his position. It is the Appeaser's Party. There are too many who are looking after themselves first and their country second.

One central theme is enough to clarify why I say that the Socialist Democratic Party is illegitimate. Their policies are Marxist and not American and they promote immorality. It was the Soviet Union, for instance, which was the first state making abortion legal already at the beginning of the twenties. Having grown up in the godless totalitarian Nazi society it is appalling for me to watch that in America politicians can speak of their "Christian faith" and at the same time make abortion, same-sex marriage, homosexuality their party policy. The consequence is the destruction of families and the concept of family without that those who practice or promote these concepts are thrown out of their churches or out of power by their voters. Unfortunately corruption has also entered Christian churches. Democrats are not fit for American Constitutional government.

No government or parliament across the globe has the authority to overrule God. The godless national Socialists, called Nazis, did it and my family, Jewish people, all Germans, and Europeans paid dearly for it because I and millions of others did not see their evil. American soldiers shed their blood to liberate us from Nazi power. It pains me to see America on the same track. Not only those who actively promote the godless programs allowed by our government establishment but also those who for personal reasons or lack of backbone appease them will pay for it, here and when they face their creator. I know the consequence of a godless government. America must have a God fearing government. The abortionists are closer to the Nazis than to our founding fathers. Both base their philosophy and action on lies.

According to an article of Gary Parker, president of the Alabama Policy Institute, in our newspaper Press-Register Cecile Richards, president of Planned Parenthood, the national abortion provider, said, "I am still having trouble expressing the depth of my anger about McCain's choice of a running mate." She and Nancy Keenan, president of NARAL, Pro-Choice America, were featured speakers at the Democratic National convention in Denver. They endorsed Obama who supports federal funding for abortions. As Illinois state senator he voted against the Born Alive Infant Protection Bill, which would have prohibited the killing of late term babies that survive attempted abortions. You wonder on what information Obama voted. Does he play superficially with human life? The following information is easy to come by. Pelosi's statement at the beginning of this article clearly means that it doesn't matter whether the baby inside the womb of the mother is alive or not we will kill it anyway.

There are various ways to perform an abortion but abortion is said to be more dangerous than child birth. In a late-term partial birth abortion, which is also used for advanced pregnancies, the cervix is dilated to allow passage of a ring forceps. A foot or lower leg is located and pulled into the vagina. The baby is extracted in breech fashion until the head is just inside the cervix. The baby's legs hang outside the woman's body. With the baby face-down, scissors are plunged into the baby's head at the nape of the neck and spread open to enlarge the wound. A suction tip is inserted and the baby's brain is removed. The skull collapses and the baby is delivered. Sharp and suction curettage is continued until the walls of the womb are clean. This information

Suction Aspiration is the most common method of abortion during the first 12 weeks of pregnancy. General or local anesthesia is given to the mother and her cervix is quickly dilated. A suction curette (hollow tube with a knife-edged tip) is inserted into the womb. This instrument is

then connected to a vacuum machine by a transparent tube. The vacuum suction, 29 times more powerful than a household vacuum cleaner, tears the fetus and placenta into small pieces which are sucked through the tube into a bottle and discarded.

Another procedure is called Dilatation and Evacuation and is performed during the second trimester, 4-6 months of pregnancy. A pliers-like instrument is needed because the baby's bones are calcified, as is the skull. There is no anesthetic for the baby. The abortionist inserts the instrument into the uterus, seizes a leg or other part of the body and, with a twisting motion, and tears it from the baby's body. This is repeated again and again. The spine must be snapped, and the skull crushed to remove them.

Let me educate Obama, Pelosi and their abortion gang who are exposing an unbelievable superficiality and disdain for human life in dealing with this subject of central importance for our nation. After all, according to the statistics around 50 million killings of living human beings took place since the Supreme Court with one vote majority made unconstitutional abortion legal. The Nazi murderer killed 6 million Jews and 10 million others – Germans, Slavs, gypsies, handicapped, Christians, their opposition and others.

Life begins at conception. Modern technology allows observing what happens in the uterus of a woman and how fast in only 5 weeks a fetus grows from the size of a sesame seed to a baby developing brain, backbone, heart and everything else what makes a person. Science explains that it is possible that from one cell sex, the color of the eyes and hairs and a myriad of other features can be determined. 18 days after conception there is a heartbeat, after 40 days the fetus has brain waves. Nothing changes in the 9 months of pregnancy, everything just grows. My wife Dina and I can watch on photos how our grandchild to come grows from the size of sesame seed to a baby. We also saw in Fox News a video of another baby in the womb of her mother, a bit elder than our grandchild. It is fascinating! Abortionists must be stopped killing human beings

We are living in the middle of humanity's insurrection against God. The insurrection consists of the organized abandonment of God's commandments in the once Christian Western world and the establishment of a global social and political infrastructure, which is contrary to His order but capable of integrating Christian voters with a toothless Christian understanding. The United States are now spearheading this movement. At the same time this nation still has a strong moral substance with people committed to reverse the trend into disaster. America will never win the ideological war unless it can defeat the lies which dominate our society. Change must come, but there must be moral change, each person beginning with oneself. Stop lying, make restitution, and stand up for truth. America should be spearheading lasting freedom across the world. Only freedom based on our Constitution and the absolute truth of God can last.
